

Step and Repeat Backdrop

Assembly guide

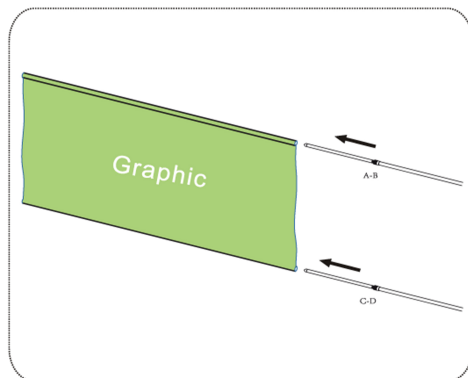

Use the manufacturer illustrations below for your selected hardware kit.

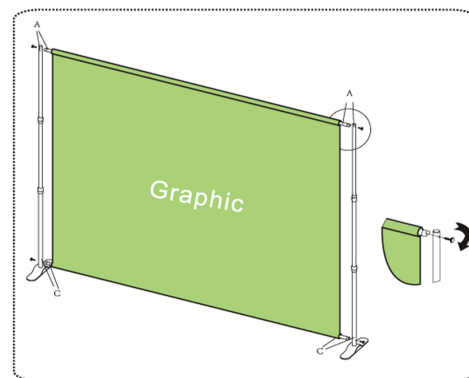

1. Join the two horizontal pole pairs at their B-B and C-C ends. Extend the telescopic A ends.

2. Insert each upright pole into its base at end C. Secure the hex bolt from underneath the base.

3. Feed the horizontal poles through the top and bottom pockets in the printed backdrop.

4. Attach the horizontal poles to the uprights with the black thumb screws.
